

Welcome to Media Services

What is Media Services?

Media Services is the academic support department in Preston Library that assists cadets and faculty in working with any "Media".

What is considered "Media"?

by media we mean:

- images (film based photographs on paper or film slides, or digital images of any file type)
- audio (digital, phonograph or tape based)
- moving images (film, video or digital video)

What Media Services are provided?

We assist patrons with creating media, editing media and presenting media.

Creating Media

We loan out:

- Cameras to record still images
- Camcorders to record digital video
- Audio recorders.

We also have a wide variety of cables and converters.

Editing Media

We have 3 rooms to edit audio, image and video content. These rooms have:

- Scanners to import still images into digital computer files
- Microphones to record and import audio
- PC stations to edit and export final presentations.
- Image editing software packages
- Audio editing software packages
- Video editing software packages

We also will provide as much assistance as possible with transferring, importing and exporting different types of content from one format or program to another.

Presenting Media

In addition to presenting media in a wide variety of digital formats as mentioned above in editing media, we also have VHS and DVD players, Blu-ray players, microphones, speakers, projectors, and screens. Our facilities are limited, but as much as we can we will also assist in mounting still images and text on foam-core and laminating materials and access to a color printer for small projects of one copy of 5 pages or less.

Where is Media Services?

We are located on the 400 level downstairs, in the back, in the 401 Suite of Preston Library.
